

Strings

A Digital Art Gallery

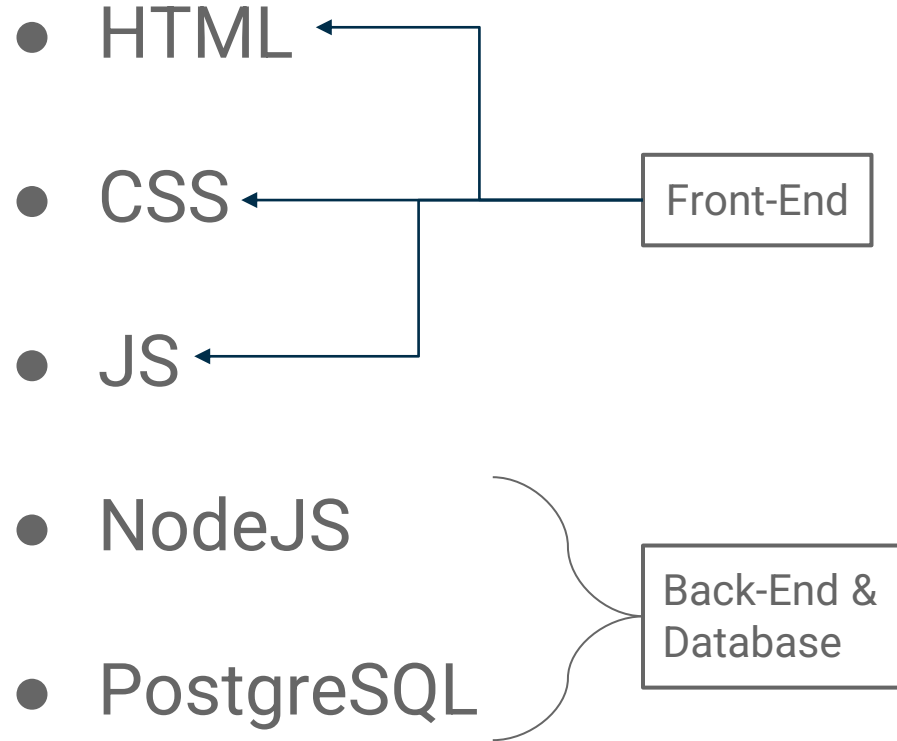

Contains

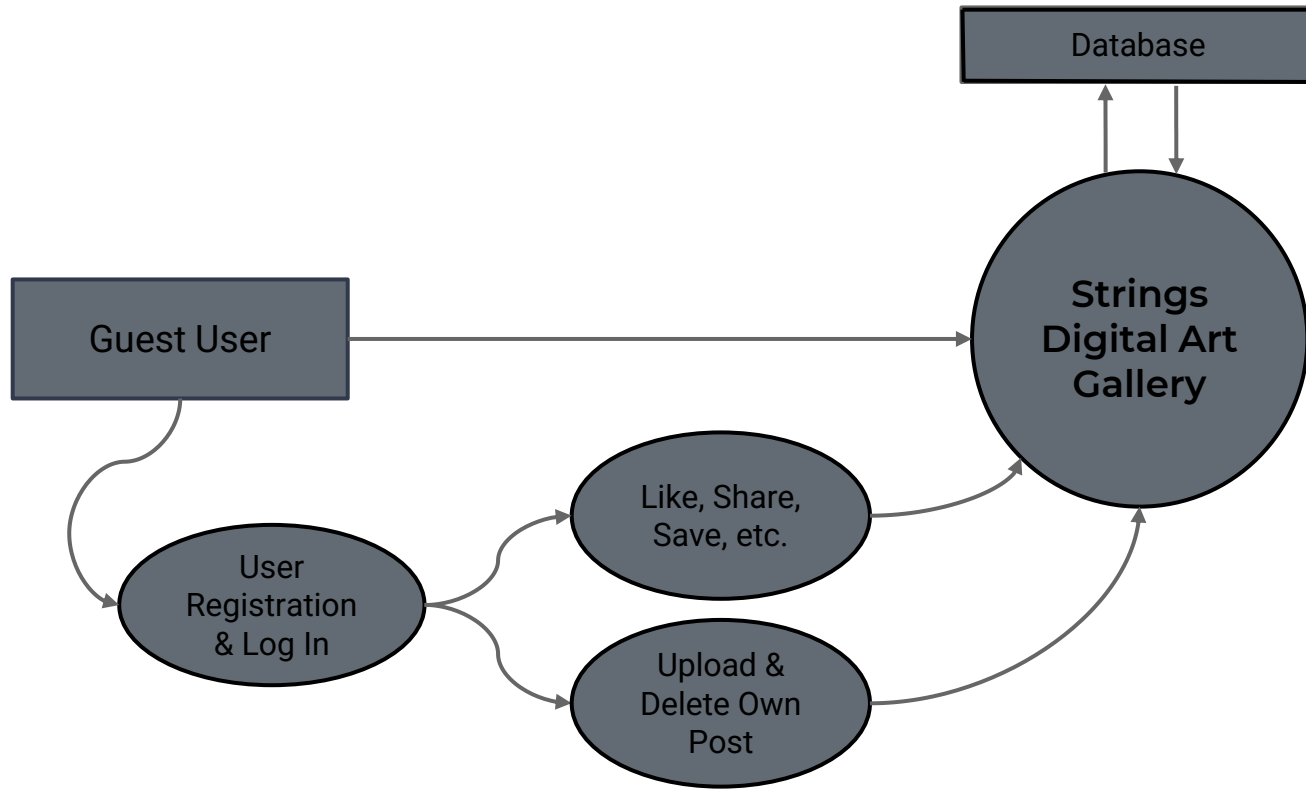

- General Idea
- Tools
- Conclusion
- Data-flow Diagram
- Database Structure

General Idea

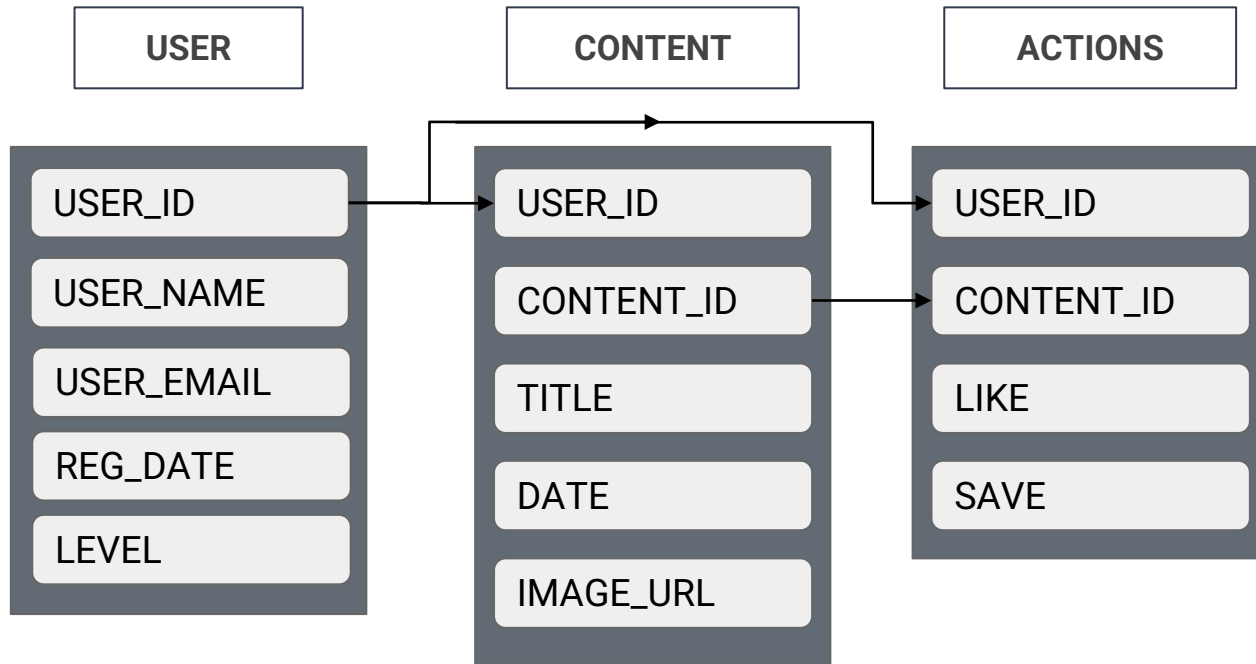

1. This is an Art Gallery application to be hosted on web, named as Strings.
2. It will connect the artists & art community to potential followers.
3. It will have features such as Like, Follow, Save, Share, as well as Upload & Delete

Tools I'll be using

Data-Flow Diagram

Conclusion

So this will be my project for BCCA
final year.
